

***Hercostomus praeceps* Lw. — *H. fulvicaudis* Walk.
(Dipt., Dolichopodidae), a correction**

By LARS HEDSTRÖM

My proposed new synonymy of *Hercostomus praeceps* Lw (Ent. tidskr. 87, p. 114) got a totally misleading typography giving the impression that *H. praeceps* and *H. fulvicaudis* Walk. are not separate species. I here present the synonymy as it was intended to appear:

Hercostomus praeceps Loew 1869.

? *Dolichopus rothi* Zetterstedt 1859.

? *Dolichopus bicingulatus* Zetterstedt 1859.

Hercostomus fulvicaudis Walker 1851 (as *Sybistroma fulvicaudis*).
